# WoodGuard™ Water repellent Oil Stain

D.K.Chemical

## Description:

The WoodGuard oil stain contains insecticides, antiseptics, and water-repellent agent, so that it protects wood against insects, wind, rain, and sunlight. It is specially formulated to repel water while also allowing wood to breathe so resists peeling and flaking

Wooden surfaces can be permanently preserved by being treated with “WoodGuard oil stain” once every 2~3 years.

## Application:

Furniture, Wood door, window frame, sofa, wooden floor, wooden crafts, etc.

## Colors Available:

Transparent, White, Cherry red, Walnut, Oak, Mahogany, Chestnut

# WoodGuard™ Water Base Gel Stain

## Description:

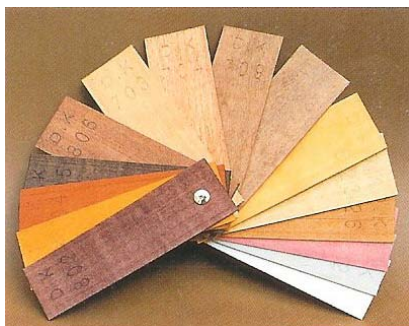

The Gel Stain is a water base stain that enriches the natural grain and beauty of the wood. The uniformly dispersed Weatherable pigments in the Gel Stain enrich the natural grain and beauty of wood and protect wood from wind, rain, and sunlight. In addition, It is blended with a water base resin that resist flammability and protects the wood from insects, moisture, peeling, flaking, and warping

## Application:

The Gel Stain can be applied to all wooden surfaces for both interior and exterior. Furniture, Benches, Wooden signboards, wooden crafts, and other wooden structures

## Colors Available:

Transparent, White, Cherry red, Walnut, Oak, Mahogany
